These are organic certified, disease free certified potatoes coming from Colorado and ordered through New Sprout Organic Farms in Asheville. We will be able to provide certification documents at the time of pick up. ** The OG Purple Majesty seed potato crop failed this year. The purple majesties on the order are chemical free and certified disease free. Certified growers should be able to use them as long as they can provide three sources where this variety was unavailable.

Potatoes will be delivered to our store in mid February. Think Valentines Day! An exact delivery date will be announced as the date nears. We do not ship at this time. However, we are working on a delivery route to the Mebane, Efland, and Cedar Grove areas and plan to test trial the first delivery route in conjunction with potato arrivals! Let us know if you are interested, and we'll send you additional details.

A \$25 deposit is required per 50lb. box ordered. Remaining balance is due at the time of pick up.

Mail, fax, call, or email orders by Saturday, December 27! Deposits can be made by calling in a credit card over the phone or by mailing a check to Country Farm & Home, 203 S. Small St., Pittsboro, NC 27312.
