**Brooks Contractor Cubic Yard Totes** -We want to coordinate tote picks up as much as possible with our Sandhills Delivery Route. Having said that, we know spring is fast upon us and some of you may want compost sooner rather than later. To get this off the ground, we are asking when you need your order, and we'll see what is logistically possible on our end to accommodate your needs.

**Dewitt Shade Cloth** - Orders due Sunday, March 3rd - Expected arrival mid-April. All orders will be custom quoted. We will wait until the order deadline passes to submit a list of items for quoting to our sales rep so he can calculate all of the quotes at one time. We will send you a final quote and ask for your approval before ordering. Look for that quote during the 2nd week of March. List below the specs that you wish to have quoted. A "taped" edge means that the edges are secured with a permanent tape on all sides to add durability and protection. Please note whether grommets are on all four sides or just long sides, and if on all four sides, are long and short sides spaced differently? Percent Shade for Black: 30, 40, 50, 60, 70, 80, 90% - Percent Shade for Aluminet 50% or 70%

**Dubois Agrinovation** - Their catalog is vast, and we're not really sure what we should bring in for inventory yet. We are going to use this group order as a guide to what seems "popular" and go from there. We welcome your feedback! We've listed below items that we think you'd be interested in, but we probably missed some. We've left some extra spaces at the bottom of this section for you to fill in anything you might find on the [Dubois website](#). We are matching all of their online pricing. Please note that online prices are in Canadian dollars. The pricing below is in US dollars which is 26% less than the Canadian \$ number on the website. Conversion rate at this time is \$1.00 CAN = \$0.74 US.

**Lewis Creek Farm Apple Cider Vinegar** - Hendersonville, NC - Order Deadline March 3rd - Lewis Creek Farm will ferment this batch for us after we order so expect a three month turnaround (mid-June) before it's ready for us to pick up. You can order a 275 gallon tote or 5 gallon jug(s). We will use our old daiquiri mix containers for repackaging. These containers are cube shaped with a screw on cap. This will be easier to pour than a 5 gallon bucket. We've had some requests for screw on spout adapters. We'll provide information on that later. We plan to order extra and keep the 5 gallon jugs stocked in the store but pre-ordering now will give us an idea of demand and also give you a discount! If you order a tote, please note that it will weigh ~2800lb full. Make sure you have the ability to move it.

**Sunsugar Farms** Biodegradable Produce Packaging - Orders Due Sunday, March 3rd - These boxes come in a stiff kraft brown paper as well as a box that is coated one side with a slick white surface. The solid brown kraft paper will break down in a compost bin more quickly but may not hold up as well for produce with greater moisture content. Order by the case and we will match the online case pricing and absorb all freight costs. Contact [melinda@cfhsupply.com](mailto:melinda@cfhsupply.com) if interested in quoting larger orders.
