Use this supply list as a reference guide or an order form. We will always have some assembled inventory on hand for walk-in customers, but we appreciate advance notice if you require large quantities of assembled woodenware. All of our woodenware is select pine and is assembled with hand-nailed, hot-dipped, galvanized nails and glue. You should plan to paint your woodenware unless you get it dipped in ECO wood treatment to preserve it. With lumber prices being so volatile, we anticipate these prices to change through out the season.
