Cultivating More Than Containers

At Growscape, we're cultivating more than just containers — we're shaping experiences, enhancing spaces, and elevating lives.

Born from the proud legacy of The HC Companies and Classic Home & Garden, our combined expertise brings the best of design, functionality, and inspiration to retailers and homeowners alike. With the majority of our products proudly made in the USA and supported by global manufacturing capabilities, we offer the flexibility, scale, and reliability that today's market demands.

Rooted in the spirit of growing together, Growscape represents a new era of decorative planters and retail solutions that help your customers bring beauty, comfort, and personality to every space, both indoors and out.

A Legacy of Innovation Meets Modern Design

For decades, The HC Companies has been a trusted name in horticultural containers, serving growers, retailers, and distributors across North America with quality planters and functional products.

With the integration of Classic Home & Garden, we've extended that foundation into the world of decorative aesthetics — merging manufacturing excellence with design-forward thinking to meet today's lifestyle trends.

Inspiration Meets Sustainability

At Growscape, we know the market is changing — and so are the values of today's consumers. That's why many of our solutions reflect forward-thinking approaches to sustainability without compromising design or performance.

We're committed to offering products that support your customers' lifestyles and environmental considerations while helping retailers provide on-trend, relevant options year-round.

Designed for Today's Consumer

Our retail and decorative collection is thoughtfully curated to offer a wide range of planters and accessories that cater to every homeowner's taste — from classic charm to contemporary flair.

Whether it's vibrant colors, sleek silhouettes, or durable outdoor-ready planters, each piece is crafted with style, purpose and value in mind.

From hanging baskets and railing planters to modern round and square pots, watering cans, and specialty garden décor accents — our products help retailers bring beauty and functionality to every corner of the home and garden.

A Partner You can Trust

With a comprehensive portfolio, expanded capacity, and distribution footprint that supports seamless service across regions, Growscape stands beside retailers as a partner in growth — simplifying the pathway from the greenhouse to garden centers, big-box stores, and independent retailers alike. We're here to help you offer the products that delight your customers today and build loyalty for tomorrow.
