### Buying Bees

**2021 Package Day – Saturday, March 27** (weather pending) - We are booking 3 lb. Italian bee packages from Georgia NOW! Packages are **\$126** each and include a **MARKED** queen. Reserve packages now to hold your space. Packages need to be prepaid at time of reservation, or at the very latest by March 1. Package sales are first come first serve. We will continue taking package orders until we run out of availability.

**2021 NUC Day – Saturday, March 20 (weather pending)** – We are reserving NUCS NOW! Our NUCs are coming from the Florida panhandle this year which means we can get them earlier than ones we have sourced in the past. By setting up your bees earlier in the season and starting with a NUC, you will have the opportunity to establish a stronger hive in the first year! Call the store or email us to reserve yours. NUCs are **\$175** and include five frames of bees with a mated queen in a PRO NUC. If you don't know what a PRO NUC is, it's cool! Think plastic Rubbermaid box that fits 5 frames perfectly, can open and close on the sides for transport or for allowing bees to forage, and can be easily adapted on the lid to accommodate pop bottle feeders. PRO NUCs typically sell for ~\$20 and can be useful for catching swarms and dividing bees later in the season so consider this an added bonus that your bees are coming in this box at no additional charge! NUCs need to be prepaid by March 1.

**Bees Other Times of Year** – Some of our local beekeepers raise NUCs and queens. If you miss our schedule, just ask and we are happy to pass along any contact info we have for anyone else in the area who may be able to help.

### Supplies

Use this supply list as a reference guide or an order form. We will always have some assembled inventory on hand for walk-in customers, but we appreciate advance notice if you require large quantities of assembled woodenware. All of our woodenware is select pine and is assembled with hand nailed hot dipped galvanized nails and glue. You should plan to paint your woodenware unless you get it dipped in ECO wood treatment to preserve it. Also, with lumber prices being so volatile this year, we anticipate frequent changes to this price list through out the season.
