COOL SEASON TRANSPLANTS ARE HERE!

More transplants are growing out on the benches
in our greenhouse grower's houses... We'll let you know HERE when they arrive!

Expect new weekly arrivals through the end of October

Be on the look-out for WORMS!

Spray plants several times a week with Bt or Spinosad to ensure
that any worms get a bite before they eat your whole plant.
These pesticides are selective to caterpillars and will not harm other
beneficial garden insects.
