COOL SEASON TRANSPLANTS ARE HERE!

Selections are winding down for fall...

We'll still have veggies for the next couple weeks with a focus on leafy greens

Expect new weekly arrivals through the end of October

Be on the look-out for WORMS!

Spray plants several times a week with Bt or Spinosad to ensure that any worms get a bite before they eat your whole plant.

These pesticides are selective to caterpillars and will not harm other beneficial garden insects.
