# Sustainable Ag Fall 2014 Pricing

Pricing subject to change with product cost and shipping changes.

**We offer a bulk discount when purchasing any 10 bag combination of potting mixes, bagged soil amendments, or feed. Ask for a special price quote on ton quantities.**

**We're constantly expanding to provide the supplies you need to grow food naturally and nutritiously. If you don't see the items you are looking for, check with us and we'll try to get them! We also have a full line of fencing & farm supplies not listed here.**

Fertilizers & Soil Amendments	1-9 Bags	10+ Bags
Harmony Ag Organic Fertilizer (5-4-3) 50lb. OMRI – Slow release; made from all natural poultry manure; 1% water sol. N, 4% water insol. N, 4% P <sub>2</sub> O <sub>3</sub> , 3% K <sub>2</sub> O, 9% calcium, .08% magnesium, 0.2% iron. <b>We keep several tons in stock and have special ton pricing!</b>	<b>\$16.95</b>	<b>\$16.10</b>  <b>Ton Price \$595.00</b>
Thorvin Kelp Minerals for Plants & Animals (1-0-2) 10lb. OMRI Slow release; improves soil texture & fertility; 10-20lb./1000 sq.ft., 400-800lb./acre	<b>\$14.50</b>	
Thorvin Kelp Minerals for Plants & Animals (1-0-2) 50lb. OMRI	<b>\$59.95</b>	<b>\$56.95</b>
Alfalfa Meal OG (3-2-2+minerals) 50lb. Nat'l List – Slow release soil conditioner; increases microbial activity; 1/2 oz. Per 1" potted plant, 2.5lbs./100 sq. ft. in gardens	<b>\$26.95</b>	<b>\$25.60</b>
Blood Meal from Poultry or Porcine (12-0-0) 50lb. Nat'l List– Repels vermin; heats up compost; side dress veggies at 2lb./100 ft. row or 300-500lb/acre	<b>\$69.50</b>	<b>\$66.00</b>
Feather Meal (~13-0-0) 50lb. Nat'l List – Slow release w/ low water solubility; nitrogen becomes available through microbial activity; 200-250lb per acre. <b>***We're now bringing in NC Feather Meal in bulk and bagging it ourselves to keep down costs. We keep 50lb. bags in stock, but on bagging days, you can buy by the pound at an additional savings. Ask us for details.</b>	<b>\$32.00</b>	<b>\$28.95</b>
Soybean Meal 50lb. – Food grade, slow-release nitrogen source sometimes used as a more economical alternative to feather meal. This soybean meal does come from a genetically modified crop. Soybean meal typically has an analysis of (7-2-1).	<b>\$21.95</b>	<b>\$20.85</b>
Cottonseed Meal 50lb. - Food grade, slow-release nitrogen source sometimes used as a more economical alternative to feather meal. Cottonseed crops can sometimes be heavily doused with pesticides. Cottonseed meal typically has an analysis of (6-2-1).	<b>\$16.25</b>	<b>\$15.45</b>
Chilean Nitrate (16-0-0+minerals) 50lb. – Pelletized, fast acting, natural fertilizer from bat guano; The NOP requires use of Chilean Nitrate at 20% of your required nitrogen need. Apply no higher than 100-150lb. per acre for heavy feeding vegetables. Do not apply close to plant stems; product may burn.	<b>\$35.25</b>	<b>\$33.50</b>
Fish Meal (9-3-1) 50lb. Nat'l List– Menhaden fish high in carbohydrates and protein; stimulates soil biology & increases tilith; slow release organic N & P. For vegetables use 10lb/1000 sq. ft or 450lb/acre. Preserved w/Ethoxyquin	<b>\$57.95</b>	<b>\$55.05</b>
Bone Meal, steamed (1-13-0) 50lb. OMRI – Starter fertilizer for immediate phosphorous w/ 30% calcium; 2-3lb/100 ft. row or 400-600lb/acre	<b>\$35.95</b>	<b>\$34.15</b>
Calphos Granular (0-3-0) 50lb.OMRI – Naturally occurring soft phosphate w/ calcium & trace minerals; 3% available (and min. 20% total) P <sub>2</sub> O <sub>5</sub> ; min. 20% Calcium. (Colloidal phosphate)	<b>\$12.95</b>	<b>\$12.30</b>

Rock Phosphate Ida-Gro Plt. (0-3-0) 50lb. OMRI— 20% total phosphate, 6-8% available P <sub>2</sub> O <sub>5</sub> , 23% calcium; Soil biology speeds release; 300-500lb/acre yearly	<b>16.50</b>	<b>15.68</b>
<b>NEW!!</b> Tennessee Brown Phosphate (0-6-0) 50lb. OMRI— 23% total phosphate, 6% available. Not a colloidal nor hard rock but rather a unique reactive rock source of natural phosphate derived from washing piles left from mining high grade ore to make Triple Super Phosphate. Great for side dressing rows but too fine for cyclone spreaders. If mechanically spreading, use the rock phosphate pellet below.	<b>\$13.00</b>	<b>\$12.35</b>
Greensand 50lb. — Loosens clay soils, binds & catalyzes release of additional nutrients; 7.15% potash & 30+ trace minerals; 50lb/1000 sq. ft, 1 ton/acre	<b>\$19.95</b>	<b>\$18.95</b>
Potassium Sulfate Granular (0-0-50-Sulfur 18%) 10lb. OMRI — Naturally occurring, mined product; 1lb/1000 sq. ft.	<b>\$11.95</b>	
Potassium Sulfate Granular (0-0-50-Sulfur 18%) 50lb. OMRI	<b>\$48.95</b>	<b>\$46.50</b>
KMag or SolPoMag 50lb. OMRI — Used both in gardens and as a feed supplement. Minimum 22% sulfur, 18% potassium, 11% magnesium. Apply according to soil test. The consistency is fine white & pink crystals.	<b>\$31.95</b>	<b>\$30.35</b>
Aragonite Fine 50lb Nat'l List — High calcium & low magnesium; 97% calcium carbonate & calcium silicate combined; 37% avail. calcium; Fe <sub>2</sub> O <sub>3</sub> .025%, Al <sub>2</sub> O <sub>3</sub> 0.15%, MgCO <sub>3</sub> 1.5%, SO <sub>3</sub> 0.2%, NaCl 1.25%, SrO 1.25%, SiO <sub>2</sub> 0.88%, 250-500lb/acre	<b>\$14.25</b>	<b>\$13.53</b>
Hi-Cal Lime 50lb. Nat'l List — 100% pulverized limestone; superior to dolomitic lime when soil is already high in magnesium; 38% elemental calcium; 95% calcium carbonate; 50 lb/1000 sq. feet or 1 ton/acre	<b>\$6.50</b>	<b>\$6.17</b>
Hi-Cal Lime 40lb. Pelletized SuperCal 98G OMRI— Pelletized limestone, high in calcium and less than 0.5% Mg. Elemental calcium is 38%. Calcium carbonate equivalent is 95%. Apply one ton/acre or 50lb./1000 sq. ft.	<b>\$11.00</b>	<b>\$10.45</b>
Azomite 44lb Naturally mined, volcanic material w/ 66+ minerals & trace elements to improve depleted soils and assist in plant nutrition & growth. Field crops: 250lb/acre followed by 100lb/acre annually. Vegetables & Flowers: 5lb/100 sq. ft. Grapes, Roses & Shrubs: 0.5-1lb. lightly tilled around plant.	<b>Granular</b>	
	<b>\$20.95</b>	<b>\$19.90</b>
	<b>Micronized Powder</b>	
	<b>\$22.50</b>	<b>\$21.38</b>
Elemental Sulfur 90% 50lb Nat'l List - Lowers pH w/o potential aluminum sulfate toxicity; great for blueberries. 10lb/1000 sq. ft. or 400lb/acre to lower pH 1 point	<b>\$21.50</b>	<b>\$20.42</b>
	10 lb. bag <b>\$9.95</b>	
Boron10% Pelleted 50lb Nat'l List — Derived from Sodium Calcium Borate, non-acid forming, product of Chile; side dress plants or broadcast across the garden. Apply in the concentration indicated by your soil test.	10 lb. bag <b>\$11.00</b>	
Gypsum Ida Gro Pelletized OMRI 50lb. - Improves structure of heavy clay soils; 22% calcium oxide; 14-15% sulfur (no effect on pH) 12-50lb/1000 sq. ft. or 300-500lb/acre	<b>\$15.00</b>	<b>\$14.25</b>
Magnesium Sulfate 50lb. Nat'l List (Epsom Salt) Mg 9.8%, S 12.9%. Quick acting Mg & S fertilizer. Can be used as a foliar application and mixed w/ pesticides or liquid fertilizers. Apply up to 100lb./acre but not side dressed or broadcast.	<b>\$20.99</b>	<b>\$19.94</b>
NatureWorks Organics Worm Castings (2-2-0.5) More so than its fertilizer analysis, these castings are most known for their consistent diet of hog waste from Eastern NC hog farms which results in an amendment rich in beneficial biology. Use to stimulate root growth, reduce disease, and retain moisture. Castings are available in 5 qt. and 25 qt. bags. BYOB-Bring Your Own Bucket.	3 qt. scoop <b>\$2.75</b> 6+ scoops <b>\$2.25/scoop</b>	

Endomycorrhizal Inoculant (BEI) from BioOrganics OMRI – Blend of eight types of endospores; 50 spores/cm <sup>3</sup> ; use as inoculant for veggies, grapes, fruit trees, berries & flowers by dusting roots, blending into potting soils, or working into soil before seeding; 2-3lb/acre or dust 1/2 tsp./transplant; 3lb treats 1500 veggie transplants	1.5lb Jar <b>\$43.95</b>
Pfeiffer BD Compost Starter 1 oz. Nat'l List – Beneficial bacteria, fungi, actinomycetes, biodynamic preparations, enzyme base & organic substrates; speeds decomposition; 1 oz treats 1 ton	<b>\$10.55</b>
EM-1 is a specific blend of microorganisms created through fermentation that originated in Japan and has been used across the world for nearly 30 years. These microbes can be used to improve the fertility and health of nearly anything - from vegetable crops, to orchards, lawns, and ornamentals. These microbes not only improve grow rates of plants but they are also an effective disease prevention. EM-1 is even great to spray on a compost heap to activate decomposition, and it can be flushed down toilets to help with septic systems. It is extremely concentrated and can be diluted at a rate of 1 ounce per gallon of water or it can be brewed in a compost tea to make even larger quantities.	32 oz. <b>\$19.99</b>
	1 gal <b>\$49.99</b>
Alaska Fish Fertilizer (5-1-1) 1 Gal OMRI - Stimulates soil's micro-organisms to help build soil content	<b>\$19.99</b>
Alaska MorBloom (0-10-10) Brightens colors in flowers and foliage, enhances natural flavor in fruit and vegetables and promotes vigorous root growth.	<b>\$19.99</b>
Brown's Fish Fertilizer (2-3-1) OMRI Produced in Western North Carolina as a byproduct of a freshwater trout farm. Brown's is a fish hydrolysate and is produced using a cold process so that it contains all the nutrients, vitamins, enzymes and natural growth hormones. It is filtered down to 120 mesh and can be used in drip line systems. Phosphoric acid is used as a pH stabilizer and as a source of phosphorus that plants need. <b>General Application Rate:</b> 2 Tbsp per gallon water every 2-3 weeks. or 2-3 gallons per acre four times during the growing season.	1 gal <b>\$16.25</b>
	5 gal <b>\$62.00</b>
	55 gal <b>\$357.00</b>
Neptune's Harvest (2-3-1) Fish & Seaweed Fertilizer OMRI - builds the natural sugar in plants; Increases marketable yields and improved shelf life on fruits and vegetables; flowers and foliage will be stronger and more colorful, blooms more plentiful, fragrant and long lasting <b>General Application Rate:</b> 1 oz. per gallon water if foliar feeding, 2 oz. per gallon water if feeding through drip irrigation	1 qt <b>\$15.99</b>
	1 gal <b>\$29.99</b>
	5 gal <b>\$80.00</b>
	55 gal <b>Ask for details</b>
<b>NEW!!</b> True Organics (4-1-3) Fish Fertilizer OMRI – A fish and molasses blend uniquely formulated for organic fruit and vegetable production, this is the stuff used by many of the large scale commercial organic growers in California. As a liquid fertilizer, True has an edge over other fish fertilizers in its ability to maintain an even consistency rather than clumping or settling. It looks like coffee and runs through a drip system cleaner than the other fish products. Recommended rate is similar to Neptunes Harvest.	Working on pricing I will be bringing in a 275 gallon tote and selling bulk – still firming details
Medina Hasta Gro Plant (6-12-6) – A natural plant and microbial food ideal for drip irrigation. Can also be foliar fed. Contains high-quality N-P-K plant food complexed with humic and fulvic acids, Medina Soil Activator to stimulate biological activity, and seaweed extracts and sugars to stimulate fruiting and blooming. Nitrogen is derived from clean urea sources.	32 oz. <b>\$7.49</b>
	1 gal <b>\$17.69</b>
	5 gal <b>\$89.00</b>
<b>NEW!!</b> Medina Horticultural Molasses Soil Stimulator 1 gal – Liquid molasses great for composting teas or mixing with your other liquid fertilizers to feed soil microbes.	<b>\$8.99</b>
Lady Bug Naturals John's Recipe Fertilizer (3-1.5-2) – This liquid fertilizer is a more complete blend than anything else I've found on the market, both fertilizing the plant and feeding the soil microbes. <b>John's Recipe™</b> is a blend of seaweed, Medina Soil Activator (to stimulate microbial activity), humic acid, and molasses, along with emulsified and hydrolyzed fish. Feed as a foliar spray or soil drench. A quart makes 32 gallons; a gallon makes 128 gallons.	1 quart <b>\$8.99</b>
	1 gal <b>\$21.99</b>

<b>Pest &amp; Weed Management</b>		
Diatomaceous Earth Feed Grade 40lb. OMRI – Use outdoor on slugs, ants, grasshoppers, crickets; indoor use on cockroaches, silverfish, carpet beetles, bedbugs, ants & fleas. Mix with feed to keep it fresh longer.		<b>\$19.99</b>
B.T. (Bacillus thuringiensis) 1 lb. OMRI – Kills leaf-eating caterpillars by paralyzing the digestive system; death in two days; harmless to beneficials, animals & humans; comes as a soluble granule to be used as a spray.		<b>\$17.95</b>
Golden Pest Spray Oil 1 gal OMRI – Soybean based spray used either during dormancy or during the growing season for fruit, nuts, evergreens, woody shrubs, shade trees, vegetables, and greenhouse crops. Controls mites, sooty mold, scale, whiteflies, mealy bugs, aphids, beetle larvae, corn earworm, leafhoppers, gypsy moth egg cases, and more.		<b>\$51.95</b>
Come & Get It Fire Ant Killer 1 lb. – Bait w/ an active ingredient of granular spinosad		<b>\$13.99</b>
Pyganic 1.4% Concentrate 32 oz. OMRI – Broad spectrum insect control w/fast result; use on all indoor & outdoor plants; zero pre-harvest interval; non-corrosive pyrethrin liquid; 1-2oz/gal water; Call or email for pricing on larger sizes or 5% concentrates		<b>\$52.95</b>
		5% 32oz <b>\$156.00</b>
Spinosad Liquid Concentrate OMRI – Spinosad A & D, 0.5%; Use in vegetable gardens, fruit trees, lawns, ornamentals; controls Colorado potato beetles, corn borers, ants, fire ants, beetles, caterpillars, worms, fleas, leafminers, spider mites, thrips, codling moth, Japanese beetles & more; 2 oz/1 gal water.	16 oz <b>\$12.99</b>	1 gal. <b>\$84.95</b>
Surround Crop Protectant 25 lb. OMRI – Made from Kaolin clay; a particle film barrier that protects fruits, veggies, & foliage but doesn't block light; use on fruit & veg. crops to suppress numerous types of insects; cover fruit & foliage before infestation for best results; 2cups/gal or 50lb/100 gal.		<b>\$34.95</b>
Neem Oil Concentrate by Greenlight OMRI – 70% neem oil broad spectrum insecticide, fungicide, miticide, repellent & insect growth regulator; gentle on beneficials		1 pt. <b>\$12.99</b>
Safer Insect Killing Soap Concentrate 16 oz. OMRI; makes 6 gallons - Kills a wide variety of insect pests, yet it can be used up to the day of harvest! Also available in RTU quart bottle		<b>\$9.99</b>
Serenade Biofungicide Concentrate 32 oz OMRI – Microbial biofungicide (bacillus subtilis) that controls lettuce downy mildew, botrytis brown rot, grape powdery mildew & much more; applied as a preventative fungicide; non-toxic to beneficial insects		32 oz. <b>\$14.99</b>
		2.5 gal. <b>\$94.95</b>
<b>NEW SIZE!!!</b> Oxidate OMRI – A broad spectrum bactericide/fungicide formulated for disease control on fruit, nut, and vegetable crops. The new 32 oz. size has a spray nozzle ready to attach to a garden hose and spray. If used in a backpack sprayer, dilute 1:150 parts water.		32 oz. <b>\$23.00</b>
		2.5 gal. <b>\$155.00</b>
I Must Garden Deer Repellent 32oz Concentrate – All natural plant-based deer repellent made in Chapel Hill. 100% money back guarantee from the manufacturer if not fully satisfied; also available in RTU sizes.		<b>\$36.99</b>
Plantskydd, Deer & Rabbit Repellent 1.3 Gal RTU OMRI – Awful smell but extremely effective and long-lasting! Primarily made of blood meal, this product repels deer and small critters by triggering odors that animals associate with predator activity; will last 3-4 months in the summer.		<b>\$47.99</b>
Corn Gluten Granulated by Bradford Organics 40lb. (9-0-0) – Great pre-emergent plus fertilizer; 10-20lb/1000 sq. ft.		<b>\$44.99</b>

EcoBlender Weed Control Concentrate – Made in Pittsboro! Botanical based, natural herbicide that breaks down plant mass into beneficial nutrients; Dilute to make 1-5 gallons depending on the heartiness of weeds. We also keep this product in a bulk 275 gallon tote where customers can bring their own containers or purchase one of ours and fill up. Five gallon minimum is required for bulk purchases.	½ gal. <b>\$16.95</b>
	2.5 gal <b>\$69.95</b>
	Bulk /gal <b>\$15.00</b>

<b>Cover Crops &amp; Inoculants</b>	
Guard-N Inoculant 1.5oz bag OMRI – Treats 8 lbs of seed; covers 54 crops including peas, beans, and more.	<b>\$3.95</b>
N-Dure Inoculant for Peas/Vetch/Lentils 8oz bag – Treats 100 lbs of seed; covers 54 crops including peas, beans, and more.	<b>\$7.99</b>
N-Dure Inoculant for Alfalfa/Clover 6oz bag – Treats 50 lbs of seed. Necessary for nitrogen fixation in soils.	<b>\$6.99</b>

We are currently reworking how we post our cover crop pricing. We will have this pricing available on our website once all of the fall seed arrives. We're still awaiting some fall seed arrivals which will fluctuate prices considerably. Crimson clover is one in particular that is expected to drop a lot over the previous years' spikes. We will also be adding to this seed list in the coming weeks as this is not a complete list of all of our seed offerings.

Austrian Winter Peas Untreated & GMO free – Fixes 70-125lbNitrogen/acre; sow 2-3 lb/1000 sq.ft.or 70-120lb/acre; early to mid-fall
Austrian Winter Peas Organic – Fixes 70-125lbNitrogen/acre; sow 2-3 lb/1000 sq.ft.or 70-120lb/acre; early to mid-fall
Barley Untreated & Non GMO– Plant in fall, Great for goat forage and cover crop, Broadcast at 140lb. per acre or 3lb. per 1000 sq. ft.
Buckwheat Organically Grown –sow 3lb./1000 sq. ft. or 130lb./acre
Buckwheat Untreated & GMO free –sow 3lb./1000 sq. ft. or 130lb./acre
Crimson Clover Uncoated & GMO free – Fixes 80lb Nitrogen/acre; sow 1/2-2lb/1000 sq. ft. or 20-40lb/acre; cold/shade tolerant
Crimson Clover Coated w/ Inoculant – Recommended seeding rate is the same as above although there is always less seed per pound when seed is coated because the coating accounts for nearly half the weight. Organic certified growers cannot use this seed because of the agent used to adhere the inoculant doesn't meet certification requirements.
Clover , Medium Red Untreated & GMO free – perennial legume used to rest & rebuild soil; sow 4-6oz/1000 sq. ft. or 10-15lb/acre; early spring or late summer
Clover, Dutch White Untreated & GMO free – Low growing clover great for isle ways, lawns, and cover crop; sow 2-5lbs./acre with other seed or 9 lbs./acre on its own; provides 100lb. nitrogen/acre when plowed in.
Clover, Ladino (White) Untreated & GMO free – Tall growing clover; provides 100lb. nitrogen/acre when plowed in; sow 9lb/acre or 2-5lb/acre w/ other grasses
Hairy Vetch Organic – Sow 30-40lb/acre or 25lb/acre w/rye; fall
Hairy Vetch Untreated & GMO Free – Extremely winter hardy and best legume for nitrogen fixation! Sow 30-

40lb/acre or 25lb/acre w/rye; fall
Millet, German Foxtail 25lb per acre – Good summer forage and cover
Oats Organic – 2.5lb/1000 sq.ft. or 100lb. per acre when sown alone. 1.2lb./1000 sq.ft or 50lb./acre when sown with a legume.
Oats Untreated & GMO Free – 2.5lb/1000 sq.ft. or 100lb. per acre when sown alone. 1.2lb./1000 sq.ft or 50lb./acre when sown with a legume.
Tillage Radish Untreated & GMO Free – A brassica excellent at breaking up compacted soil & scavenging leached nitrate; produces biotoxins that help control soilborne pests and pathogens; provides weed control & may be mixed with winter grains; Sow at a depth of 1/4 - 1/2"; broadcast at 12-15 lbs./acre; Inquire about 50# bag pricing.
Sericea Lespedeza – 25-30lb/acre - Perennial legume that's a GREAT forage for goats! Research out of NC State has shown that goats grazing on sericea lespedeza have fewer intestinal parasites!
Sorghum Sudangrass Untreated & GMO Free – Plant at 1/2"-1" depth; 10-20 lbs/acre in rows or 25-35lbs./acre drilled or broadcast
Winter Grain Rye Organically Grown – Sow 2.5lb/1000 sq. ft or 100lb/acre alone; 1.2lb/1000 sq. ft. or 50-60lb/acre when sown w/ a winter legume
Winter Grain Rye Untreated & GMO Free – Sow 2.5lb/1000 sq. ft or 100lb/acre alone; 1.2lb/1000 sq. ft. or 50-60lb/acre when sown w/ a winter legume
Winter Wheat Organically Grown – Arapahoe or VNS variety; 120lb./acre; winter or spring
Winter Wheat Untreated & GMO Free – 120lb./acre; winter or spring

<b>Row Cover, Ground Cover, Trellising</b>			
Fiberglass Reinforced 8 ft. Plastic Rods – 5 mm diameter; easy to install; bounces back if crushed by snow; store out of sunlight	Each <b>\$1.50</b>	Bundle - 50 <b>\$70.00</b>	
AgroFabric 19 ( 90" width)– 0.55 oz spunbonded polypropylene lightweight fabric used for frost & insect protection; 95% light transmission; good water permeability & thicker fibers for better strength. 2-4 degree frost protection	By the Foot <b>\$0.30</b>	250 ft. Roll <b>\$42.50</b>	
AgroFabric 34 ( 90" width)– 1 oz spunbonded polypropylene fabric used for late fall, early spring, and overwintering; 70% light transmission; 4-6 degree frost protection	By the Foot <b>\$0.40</b>	250 ft. Roll <b>\$65.00</b>	
Lumite Ground Cover – Durable, woven plastic that's great for weed control in row crops and greenhouse flooring. The 3' roll is perfect for rows and the 6' roll for patches. We can also get this in wider widths for greenhouses. Woven plastic allows for permeability and the durability allows for multiple uses. Burn holes with a propane torch for planting. Other widths can be custom ordered.	3ft. x 300ft. <b>\$61.95</b>	6ft. x 300ft. <b>\$131.00</b>	
<p><b>NEW!!</b> WeedGuardPlus Biodegradable Mulch OMRI –  <a href="http://www.weedguardplus.com">www.weedguardplus.com</a> This 100% biodegradable weed suppressing paper reduces weeding costs, eliminates removal and disposal costs associated with plastics, and improves water use efficiency. We are stocking a heavy weight smooth paper that can be put down by hand and a standard weight creped paper that can be put down either by hand or by a mulch layer.</p> <p>We also are now renting a mulch layer for laying the creped paper, plastics, and drip tape!</p>	3ft x 250ft. <b>\$47.95</b>		
	3ft x 500ft 3+ rolls <b>\$84.95</b> <b>\$80.00</b>		
	4ft x 100ft. <b>\$37.95</b>		
	4ft. x 250ft. smooth <b>\$54.95</b>		
	4ft. x 250ft. creped <b>\$63.95</b>		
	4ft. x 500ft creped <b>\$110.00</b> 3+ rolls <b>\$100.00</b>		
<p><b>NEW!!</b> Hortonova Trellis Netting – Strong, polypropylene mesh with 6"x6" holes; This easy, cost effective trellising allows your plants greater exposure to sun and air. Install horizontally for cut flowers or vertically for</p>		328' rolls	
	36"	<b>\$43.00</b>	3280' rolls <b>\$199.00</b>
	48"	<b>\$53.00</b>	<b>\$265.00</b>

climbing plants like beans, cucumbers, peas, peppers, tomatoes, and melons. We are currently stocking Hortonova in 36", 48", and 59" widths, but we can also order 42", 67" or 79".	59"	<b>\$56.00</b>	
---	-----	----------------	--

<b>Growing Mixes &amp; Seeding Trays</b>			
Winstrip Trays – Indestructible, awesome, hard to find, seed starting trays loved by farmers! We currently have the 72 cell trays while supplies last!		1-9 trays <b>out</b>	10+ trays <b>out</b>
1020 Standard Web Tray	1-9 Trays <b>\$0.95</b>	10+ Trays <b>\$0.75</b>	Case of 50 <b>\$28.00</b>
Standard NCR Tray – Comes w/ or w/o drainage slits	1-9 Trays <b>\$1.60</b>	10+ Trays <b>\$1.25</b>	Case of 100 <b>\$110.00</b>
Standard Inserts for Trays – We carry 1204s, 1206s, and 606s. This means an insert sheet of 12 perforated 4 packs, 12 perforated 6 packs, or 6 larger & deeper perforated 6 packs. We can also most likely order other inserts. Just ask!	1-9 Inserts <b>\$0.95</b>	10+ Inserts <b>\$0.75</b>	Case of 100 <b>\$60.00</b>
Sunshine Natural & Organic Planting Mix 2.5 cu.ft. OMRI – University formulated mix containing Canadian sphagnum peat moss, perlite, dolomite lime and an organic wetting agent. <b><u>We keep several pallets in stock! Special pallet price is \$450 for 45 bags!</u></b>		1-9 bags <b>\$11.99</b>	10+ bags <b>\$11.39</b>
Fafard Organic Potting Mix 40qt. (NOP) - Canadian sphagnum peat moss, aged pine bark, perlite, vermiculite, dolomitic limestone, gypsum, and all natural Perdue® organic fertilizer with no synthetic materials such as pesticides, chemical fertilizers, or water conditioners.		1-9 bags <b>\$7.75</b>	10+ bags <b>\$7.36</b>
Bloomin' EZ Organic Compost (NOP) – This dense, humus based compost is made from agricultural crop residues which become more readily available than most wood-based composts. One bag of Bloomin' EZ will have the nutrient value of two bags of most commercial composts, making it a good value for bagged compost.		1-9 bags <b>\$6.50</b>	10+ bags <b>\$6.18</b>
Lady Bug Naturals Revitalizer Compost Blend 1.5 cuft – A blend of humus compost, composted turkey, cow, and horse manures, humates for a long-term slow release of humic acids, and a small amount of granite sand for minerals and drainage.		1-9 bags <b>\$12.49</b>	10+ bags <b>\$11.87</b>
Organic Mushroom Compost 40 qt. Made by Black Kow		1-9 bags <b>\$4.60</b>	10+ bags <b>\$4.37</b>
NatureWorks Organics Worm Castings (2-2-0.5) More so than its fertilizer analysis, these castings are most known for their consistent diet of hog waste from Eastern NC hog farms which results in an amendment rich in beneficial biology. Use to stimulate root growth, reduce disease, and retain moisture. Use as a 1:10 ratio with your favorite planting mix for seedlings or amend row crops by tilling in or top dressing. BYOB-Bring Your Own Bucket.		3 qt. scoop <b>\$2.75</b> 6+ scoops <b>\$2.25/scoop</b>	
Planters Gold Compost 30qt This 80% compost & 20% Nature Works worm castings blend combines composting & vermicomposting processes to provide plants with an abundance of nutrients & microbiology. For best rooting & drainage, till into the soil, replacing 50% by volume to an 18" depth or apply directly into furrows and planting holes or top dress after planting.		1-9 bags <b>\$10.95</b>	10+bags <b>\$10.40</b>
Lady Bug Naturals Square Foot Gardening Blend 2cuft. – This blend of five composts, coarse vermiculite, and coir fiber (coconut fiber) takes the guesswork out of square foot gardening. Simply pour the bag and plant. Four bags are needed for a typical 4x4 bed.		1-9 bags <b>\$18.99</b>	10+bags <b>\$18.04</b>
Coarse Vermiculite 4 cu. ft. (asbestos free) This is the vermiculite most commonly used in square foot gardening because it tends to hold up longer in the soil than medium grade.		1-9 bags <b>\$21.50</b>	10+ bags <b>\$20.43</b>
Medium Grade Vermiculite 4 cu. ft. (asbestos free) Good alternative for smaller containers		1-9 bags <b>\$16.99</b>	10+ bags <b>\$15.50</b>
Perlite (asbestos free) Good for potting mixes; used to improve drainage		1-9 bags <b>\$14.99</b>	10+ bags <b>\$14.24</b>
Sunshine Peat Moss 3.8cuft compressed bale OMRI – 100% Canadian		1-9 bags	10+ bags

sphagnum peat moss, ideal for starting seed, raised beds, and soil conditioning.	<b>\$14.95</b>	<b>\$14.20</b>
Lady Bug Naturals Coir Fiber 1 cuft – Coconut fiber is becoming a more popular alternative to peat moss for conditioning soils, starting seeds, and growing ginger. This bagged coir has been mechanically shredded to allow for better absorption as compared to the dense blocks.	1-9 bags <b>\$11.95</b>	10+ bags <b>\$11.35</b>
Ko Ko Pro Condensed Coir 10 lb. Block – Expands 8x in water. A 10lb block makes about 64 quarts of material.	1-9 bags <b>\$12.95</b>	10+ bags <b>\$11.35</b>

### **Animal Supplements**

The following items listed in other parts of this catalog are food grade and excellent animal supplements...

Alfalfa meal, azomite, aragonite, cottonseed meal, diatomaceous earth, fish meal, soybean meal, Thorvin kelp

We are a full service feed store and carry much more than this, too, including organic feed from Reedy Fork Farm, Redmond Salt in 50lb. bags, and Blue Seal Organic Layer pellets. We can also special order any Fertrell products.

\*\*\*We also carry a full line of Espoma fertilizers and soil amendments, fencing supplies, farm equipment, drip irrigation, and much more.
