Sustainable Ag 2024 Catalog

This catalog is a product guide for our farming, homesteading, and avid gardening customers. It does not offer a complete listing of all products available. We are a full service feed and farm supply and carry way more than what can be printed in this catalog! Fencing and seed prices can be found on our website. For other product information and/or pricing, please call or email us. **NOTE: We try our best to keep prices current in this catalog, but it is possible that some prices may change before updates are made to the catalog.**

Bulk Pricing: In general, a **5% discount** is offered when buying minimum quantities of 10 at a time and **10% discounts** for pallets and cases unless otherwise noted. Soil amendments and potting mixes can be mixed and matched to reach the 10 bag minimum for the 5% discount. Pallet and ton pricing does not qualify for mix and match.

A Special Note to Our Organic Certified Customers or Those Seeking Certification:

Although all of the products in this catalog contain natural ingredients, that does not always mean they have been approved by a certifying agency. Please use caution when choosing inputs for your farm, and when in doubt, ask your certifier. If you are interested in certification but do not have a certifier yet, we recommend contacting Carolina Farm Stewardship Association. CFSA offers a free consulting service to help growers navigate through the world of getting certified. For more information, consult <http://www.carolinafarmstewards.org>.

Multipurpose Fertilizers	pg 2	Weed Control	pg 15
Nitrogen Sources	pg 4	Ground Covers & Trellising	pg 15
